

pH Meter Kits

Exclusive Oyster Design can be used in the lab or in the field

The
Oyster
Series

Features:

- Large 0.5" LCD built into adjustable "flip-up" cover
- Front panel slope, calibration & temperature controls
- Rugged design for handheld or benchtop use; neckstrap for "hands-free" operation
- Accurate to 0.02pH with 0.01pH resolution, 0.5mV and 0.5°C (mV/Temperature models)
- Manual temperature compensation (0 to 100°C)
- Dims: 3.7x4.2x2" (94x107x51mm) Wt. 12oz (340g)

Economy pH Meter Kit

- Measures full pH range from 0 to 14.00
- Complete with mini pH electrode, sample buffers, neckstrap and case

Ordering Information:

120000.....Oyster pH Meter
120505.....Oyster pH Meter Kit, general purpose electrode

pH/ORP/Temperature Meter Kit

- Measures pH from 0 to 14.00, mV to ± 1999 and temperature from 0 to 100°C
- Complete with pH electrode, temperature probe, sample buffers, neckstrap & case

Ordering Information:

120640.....Oyster pH/mV/Temperature Meter
120645.....Oyster pH/mV/Temperature Meter Kit
67500B.....Optional Redox/ORP Reference Electrode
149118.....117VAC Adaptor
149231.....230VAC Adaptor

pH/ORP/Temperature Meter & Calibrator Kit

- Measures pH from 0 to 14.00, mV to ± 1999 and temperature from 0 to 100°C
- Calibrates pH from 0 to 14.00, mV to ± 450
- Complete with meter, pH electrode, stainless steel temperature probe, BNC to BNC calibration cable, sample buffers, neckstrap, 9V battery and case

Ordering Information:

120630.....Oyster pH/mV/Temp Meter/Calibrator
120635.....Oyster pH/mV/Temp Meter/Calibrator Kit
120638.....Spare BNC to BNC Calibration Cable
